

## 24 Hot Rolled Seamless Steel Pipe Distributor Hot Finished Welded Tubes A269 Tubing

### Our Product Introduction

for more products please visit us on [seamless-steeltube.com](http://seamless-steeltube.com)

#### Basic Information

#### Product Specification

- Name: Hot Rolled Seamless Steel Pipe
- Length: 1-12m
- Outer Dia: 21.3mm-660mm
- Wall Thickness: 0.5mm-20mm
- Material: Carbon Steel, Stainless Steel, Alloy Steel, Etc
- Application: Structure Pipe/Fluid Pipe/Gas Pipe/Oil Pipe/Boiler Pipe
- Ends: Plain/Beveled/Threaded/Socketed/Grooved
- Surface Treatment: Black Painting/Galvanized/Anti-Corrosion Coating
- Highlight: hot finished welded tubes,  
seamless steel pipe distributor,  
24 seamless carbon steel pipe

## Product Description

### Carbon Steel Hot Rolled Seamless Steel Pipe Good Compression Resistance

There is no weld on the outer surface of seamless steel pipe, which has a hollow section. It is a change from round steel to hollow round bar, and has good compression resistance. The advantages of seamless steel pipe are high pressure resistance, good toughness, long pipe section and few joints. It is widely used.

#### Specifications

Type	Hot rolled seamless carbon steel pipe
Size	Outer Dia:21.3mm-660mm,According to customer requirements
	Wall Thickness:0.5mm-20mm,According to customer requirements
	Length:1-12m,According to customer requirements
Standard	GB12771-91, ASTM A1053/A1053M-06, ASTM A268/A268M-05A, ASTM A269-07,etc
	ASTM A270-03A, ASTM A312/A312M-06, ASTM A358/A358M-05, ASTM A632-04,etc
	ASTM A789/A789M-05b, ASTM A790/A790M-05b, ASTM A872/A872M-07A,etc
Material	10#,20#,45#,Q235,Q345,Q195,Q215,Q345C,Q345A,etc
MOQ	1 TON,Samples available
Certification	CE,ISO9001,etc
Payment Terms	T/T, D/A, D/P, L/C, Western Union, MoneyGram,According to customer requirements
Delivery Time	Within 7 days, According to the quantity ordered by the customer.
Packing	Standard Seaworthy Package,according to customer requirements
Application	Medical equipment,Table wares,Construction,Kitchen utensils,Chemical industry,etc

Hot rolled seamless steel pipes have a wide range of applications across various industries due to their superior strength, durability, and versatility. Here are some common applications of hot rolled seamless steel pipes:

**Oil and Gas Industry:** Hot rolled seamless steel pipes are extensively used in the oil and gas sector for transporting fluids and gases under high pressure and temperature conditions. They are used in drilling, production, and transportation of oil and gas, including offshore and onshore applications.

**Construction and Infrastructure:** Hot rolled seamless steel pipes are used in the construction industry for structural purposes. They are commonly used in the construction of buildings, bridges, highways, and other infrastructure projects where high strength and durability are required.

**Mechanical and Engineering Applications:** Hot rolled seamless steel pipes are widely used in various mechanical and engineering applications. They are used for manufacturing machinery, equipment, and mechanical components that require high strength and resistance to stress and corrosion.

**Power Generation:** Hot rolled seamless steel pipes are used in power generation plants, including thermal power plants, nuclear power plants, and renewable energy facilities. They are used for transporting steam, water, and other fluids in power generation processes.

**Automotive Industry:** Hot rolled seamless steel pipes find applications in the automotive industry for manufacturing various components, such as exhaust systems, chassis, and structural parts. They offer excellent formability, strength, and compatibility with welding processes.

**Petrochemical Industry:** Hot rolled seamless steel pipes are used in the petrochemical industry for transporting chemicals, gases, and fluids in refineries, chemical plants, and petrochemical processing facilities. They are resistant to corrosion and high temperatures, making them suitable for such demanding environments.

**Mining and Exploration:** Hot rolled seamless steel pipes are used in the mining industry for various applications, including exploration, extraction, and processing of minerals. They are used in pipelines for transporting ores, slurries, and other mining materials.

**Manufacturing and Fabrication:** Hot rolled seamless steel pipes are utilized in various manufacturing and fabrication processes. They are used for creating structural frameworks, conveyor systems, and other components in industries such as steel fabrication, manufacturing, and industrial machinery.

**Hydraulic Systems:** Hot rolled seamless steel pipes are used in hydraulic systems for transmitting fluid power. They are used in hydraulic cylinders, hydraulic machinery, and equipment that require high-pressure fluid transmission.

**Agriculture and Irrigation:** Hot rolled seamless steel pipes are used in the agricultural sector for irrigation systems, water supply networks, and drainage systems. They are suitable for transporting water, fertilizers, and other agricultural fluids.

## FAQ

Q1. Are you a manufacturer or trader?

We are a manufacturer, and we can have our own factory produced many steel products.

Q2. Whether your company supports Trade Assurance order?

Yes, we can (100% product quality protection; 100% on-time shipment protection; 100% payment protection)

Q3. Can we get the some samples? Any charges?

Yes, you can get available samples in our stock. If the samples from new production, we will charge some reasonable cost, but this amount will be deducted from your first order.

Q4. How do we build up business relations with your company?

Send us your requirement which includes size, coating info, parameters, quantity, destination .

Q5. What is the MOQ?

We can accept small orders. Please feel free to contact us, we can meet your requirements.

Q6. What's your advantage?

With high-quality products and efficient customer service, we adhere to the principle of customer first.

Q7. How long is your delivery time?

Delivered within 15 days after receipt of deposit.
